AMERICA'S PASTIME, AMERICAN MADE.™

Since 1934, in a small town called Nocona, Texas, premium ball gloves have been handcrafted by talented and skilled American workers, using the world's highest quality leathers. Many of these people have dedicated their lives to producing the finest baseball and softball gloves, so that each and every glove can be used with confidence and pride. Nokona gloves are individually cut, stamped, stitched, laced, and embroidered, which gives each one its own unique identity and feel. Today, Nokona is focused on the future, with many of the same principles that have guided our past – quality, craftsmanship, innovation, integrity, and a commitment to our employees, suppliers, customers, and our country. We continue to put classic American workmanship into every glove, using techniques that have developed for more than 80 years.

LEATHER GUIDE

FULL GRAIN STEERHIDE

Premium-grade, full-grain Steerhides, sourced from American ranchers, tanned to our long-standing specifications, and offered in Walnut™ [our signature Steerhide, known for its classic "Crunch" look and feel]; Buckskin Stampede™ [infused with proprietary oils and waxes for a soft and pliable, yet dense feel]; Sandstone™ [our pro-grade Steerhide, with a smooth and hard finish]; and SuperSoft™ [our newest, specialty-tanned Steerhide, has the most flexibility and softness, while maintaining good structure].

AUSTRALIAN KANGAROO

Sourced from wild-range Australian kangaroos, Nokona has been making gloves with this unique leather for over 50 years. Kangaroo is a high-performance and specialized leather that is stronger and lighter-weight than most other ball glove leathers. Kangaroo fibers interlock for greater strength, and this leather is soft and flexible, and resists the effects of perspiration. When combining Kangaroo Leather with our Steerhides, we call it Buckaroo™.

AMERICAN BISON

Similar in strength to our Steerhide leathers, American Bison has a distinct grain, and is flexible and soft, for easy break-in. Ideal for Select gloves, and for Adults who are looking for a durable, flexible, and easy-to-break-in glove. American Bison is also a light-weight performance leather.

JAPANESE CALFSKIN™

Our CalfSKN™ leather comes from specialty-tanned Japanese Calfskin that has very tight fibers and fine pores. This leather holds vibrant colors very well, and results in a very smooth appearance that is extremely light-weight. Ideal for professional, college, high-school, and club players looking for high performance gloves.

AMERICAN CAIMAN

American Caiman provides a unique look and feel, and is ideal for parts of your Custom Nokona. The rigid reptilian scales, combined with its flexible portions, provide an exceptional leather for the palm liner of your ballglove, for its superior grip and customized feel.

X2 ELITE™

WARRANTY GUARANTEE 

MSRP \$400 MAP \$350

Nokona's elite performance, ready-for-play, position-specific series. The X2 Elite™ is made with Nokona's proprietary top-grain Stampede™ Steerhide and Kangaroo leathers, for a light-weight and game-ready glove. The perfect combination of top quality and high performance.

NOKONA GLOVE CONDITIONER NLT

Nokona Leather Treatment - Classic Glove Conditioner is ideal for breaking in, cleaning, and preserving glove leather. Used for over 50 years, we swear by it. Unlike liquefied oils, NLT Classic won't soak into the padding. Just as you would treat your skin when dry, retreat your glove as needed.

TOMAHAWK GLOVE Mallet™

Simulates the true action of a ball breaking in a ball glove. Designed with a spherical head, to replicate the shape of a baseball or softball – creates a well-formed pocket.

NOKONA PALM SAVER NPS

Designed by Nokona as an additional padding source for the palm area of your glove. Great for catchers.

**Available in Left and Right. One Size Fits Most.*

NOKONA WRIST SAVER NWS

Designed by Nokona for players desiring better hand control of their gloves.

**Works on either hand. One Size Fits Most.*
